

Ball Wins Two Euro CanTech 2018 Awards for Metallic Aluminium Aerosol Can and Two-piece Beverage Decorative Design

BROOMFIELD, Colo., April 27, 2018 /PRNewswire/ -- [Ball Corporation](#) (NYSE: BLL) recently won two 2018 Euro CanTech Awards from CanTech International for its metallic Ball-branded aluminium aerosol deodorant can and beverage cans created for Heineken Serbia's Zaječarsko brand.

For the aerosol can, Ball developed a cost-effective, captivating solution for customers who want the look of hot stamping (where a metallic foil is applied to the can). Using state-of-the-art pigments and the company's unique ink application technology, a glossy, reflective sheen can be applied on aluminium cans of all shapes and sizes and is available in a range of metallic shades.

For the beverage can, Ball partnered with Heineken Serbia, a long-standing customer, on an exclusive can design. Heineken created four limited edition cans, which showcase Ball's impeccable high-definition printing technique, for its Zaječarsko brand. Ball worked closely with Heineken to transfer four pieces of artwork from the Serbian National Museum onto cans for a unique collaboration that truly emphasizes Ball's unique design and graphics capabilities.

Forward-Looking Statements

This release contains "forward-looking" statements concerning future events and financial performance. Words such as "expects," "anticipates," "estimates," "believes," "targets," "likely" and similar expressions typically identify forward-looking statements, which are generally any statements other than statements of historical fact. Such statements are based on current expectations or views of the future and are subject to risks and uncertainties, which could cause actual results or events to differ materially from those expressed or implied. You should therefore not place undue reliance upon any forward-looking statements and any of such statements should be read in conjunction with, and, qualified in their entirety by, the cautionary statements referenced below. The company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Key factors, risks and uncertainties that could cause actual outcomes and results to be different are summarized in filings with the Securities and Exchange Commission, including Exhibit 99 in our Form 10-K, which are available on our website and at www.sec.gov. Additional factors that might affect: a) our packaging segments include product demand fluctuations; availability/cost of raw materials; competitive packaging, pricing and substitution; changes in climate and weather; competitive activity; failure to achieve synergies, productivity improvements or cost reductions; mandatory deposit or other restrictive packaging laws; customer and supplier consolidation, power and supply chain influence; changes in major customer or supplier contracts or a loss of a major customer or supplier; political instability and sanctions; currency controls; changes in foreign exchange or tax rates, including due to the effects of the 2017 U.S. Tax Cuts and Jobs Act; and tariffs or other governmental actions in any country affecting goods produced by us or in our supply chain, including imported raw materials, such as pursuant to section 232 of the U.S. Trade Expansion Act of 1962; b) our

aerospace segment include funding, authorization, availability and returns of government and commercial contracts; and delays, extensions and technical uncertainties affecting segment contracts; c) the company as a whole include those listed plus: changes in senior management; regulatory action or issues including tax, environmental, health and workplace safety, including U.S. FDA and other actions or public concerns affecting products filled in our containers, or chemicals or substances used in raw materials or in the manufacturing process; technological developments and innovations; litigation; strikes; labor cost changes; rates of return on assets of the company's defined benefit retirement plans; pension changes; uncertainties surrounding geopolitical events and governmental policies both in the U.S. and in other countries, including the U.S. government elections, budget, sequestration and debt limit; reduced cash flow; ability to achieve cost-out initiatives and synergies; interest rates affecting our debt; and successful or unsuccessful joint ventures, acquisitions and divestitures, including with respect to the Rexam PLC acquisition and its integration, or the associated divestiture; the effect of the acquisition or the divestiture on our business relationships, operating results and business generally.
