

Ball Aerospace's Dr. Gazarik Named AIAA Fellow

BOULDER, Colo., Feb. 12, 2020 /PRNewswire/ -- The American Institute of Aeronautics and Astronautics (AIAA) has recognized Dr. Mike Gazarik, Ball Aerospace's vice president of Engineering, among its 2020 class of Fellows. AIAA confers the distinction of Fellow upon individuals in recognition of their notable and valuable contributions to the arts, sciences or technology of aeronautics and astronautics.

"Mike has spent his career advancing the future of space technology and mentoring the next generation of aerospace professionals in a manner fitting the distinction of AIAA Fellow," said Rob Strain, president, Ball Aerospace. "As a widely recognized and respected leader, Mike's talent for empowering innovative organizations and people shows across our industry in the many people he has inspired and in the transformative organizations he has shaped."

As vice president of Engineering at Ball Aerospace, Gazarik ensures Ball has the talent and technology to meet business demands and growth. He is responsible for Ball's research and development portfolio, ensuring the company can continue to deliver high-impact discriminating technologies to meet customer needs. With more than 25 years of experience in the design, development and deployment of spaceflight systems, Gazarik joined Ball from NASA Headquarters, where he held the position of Associate Administrator for the Space Technology Mission Directorate. He earned a bachelor's in electrical engineering from the University of Pittsburgh and a master's and Ph.D. in electrical engineering from the Georgia Institute of Technology.

Gazarik will be inducted on May 19, 2020, and then recognized on May 20, 2020, at the AIAA Aerospace Spotlight Awards Gala in Washington, D.C.

About Ball Corporation

Ball Corporation (NYSE: BLL) supplies innovative, sustainable aluminum packaging solutions for beverage, personal care and household products customers, as well as aerospace and other technologies and services primarily for the U.S. government. Ball Corporation and its subsidiaries employ more than 18,300 people worldwide and reported 2019 net sales of \$11.5 billion. Forward-Looking Statements

This release contains "forward-looking" statements concerning future events and financial performance. Words such as "expects," "anticipates," "estimates," "believes," "targets," "likely," "positions" and similar expressions typically identify forward-looking statements, which are generally any statements other than statements of historical fact. Such statements are based on current expectations or views of the future and are subject to risks and uncertainties, which could cause actual results or events to differ materially from those expressed or implied. You should therefore not place undue reliance upon any forward-looking statements and any such statements should be read in conjunction with, and, qualified in their entirety by, the cautionary statements referenced below. The company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Key factors, risks and uncertainties that could cause actual outcomes and results to be different are summarized in filings with the Securities and Exchange Commission, including Exhibit 99 in our Form 10-K, which are available on our website and at www.sec.gov. Additional factors that might affect: a) our packaging segments include product capacity, supply, and demand constraints and fluctuations; availability/cost of raw materials and logistics; competitive packaging, pricing and substitution; changes in climate and weather; footprint adjustments and other manufacturing changes, including the startup of new facilities and lines; failure to achieve synergies, productivity improvements or cost reductions; mandatory deposit or other restrictive packaging laws; customer and supplier consolidation; power and supply chain interruptions; potential delays and tariffs related to the U.K.'s departure from the EU; changes in major customer or supplier contracts or a loss of a major customer or supplier; political instability and sanctions; currency controls; changes in foreign exchange or tax rates; and tariffs, trade actions, or other governmental actions in any country affecting goods produced by us or in our supply chain, including imported raw materials, such as pursuant to Section 232 of the U.S. Trade Expansion Act of 1962 or Section 301 of Trade Act of 1974; b) our aerospace segment include funding, authorization, availability and returns of government and commercial contracts; and delays, extensions and technical uncertainties affecting segment contracts; c) the company as a whole include those listed plus: the extent to which sustainability-related opportunities arise and can be capitalized upon; changes in senior management, succession, and the ability to attract and retain skilled labor; regulatory action or issues including tax, environmental, health and workplace safety, including U.S. FDA and other actions or public concerns affecting products filled in our containers, or chemicals or substances used in raw materials or in the manufacturing

process; technological developments and innovations; information technology initiatives and management of cyber-security processes; litigation; strikes; labor cost changes; rates of return on assets of the company's defined benefit retirement plans; pension changes; uncertainties surrounding geopolitical events and governmental policies both in the U.S. and in other countries, including the U.S. government elections, budget, sequestration and debt limit; reduced cash flow; interest rates affecting our debt; and successful or unsuccessful joint ventures, acquisitions and divestitures.
