## **Ball Aerospace President Rob Strain Joins Defense Innovation Board's Space Advisory Committee**

BOULDER, Colo., Oct. 5, 2020 /<u>PRNewswire</u>/ -- Ball Aerospace President Rob Strain has been selected to serve as a subcommittee member on the <u>Defense Innovation Board</u> (DIB) Space Advisory Committee (SAC). As a member of the SAC, Strain will draw on more than 30 years of experience in the aerospace industry to provide his unique perspective and expertise to the DIB for Department of Defense leaders on how to best leverage innovation to address current and future challenges and opportunities in space.

"Rob is extremely committed to the aerospace industry and has a long track record of leadership in both the public and private sectors," said John A. Hayes, chairman, president and chief executive officer, Ball Corporation. "His diverse experience and perspective have led to tangible and impactful results, and he will be a great asset to the DIB advisory committee."

Prior to joining Ball in 2012, Strain served as center director of NASA's Goddard Space Flight Center, overseeing the success of more than 13 missions, including the final Shuttle servicing mission to the Hubble Space Telescope and the successful restructure of the James Webb Space Telescope (Webb).

Before NASA, Strain was the head of the Space Department at the Johns Hopkins University Applied Physics Lab in Laurel, Maryland, where he was integral to the successful development, launch and operations of the New Horizons Spacecraft to Pluto. While at APL, he was also responsible for the National Security business area which made many significant contributions to the Department of Defense and other U.S. agencies.

"This advisory panel will be critical in shaping the nation's path forward in space exploration, technology development and strategy at a time when the space domain is evolving quickly and in unforeseen ways," said Strain. "I am honored and humbled to play even a small role in determining how our country will address the many complex challenges in this increasingly dynamic environment."

Powered by endlessly curious people with an unwavering mission focus, **Ball Aerospace** pioneers discoveries that enable our customers to perform beyond expectation and protect what matters most. We create innovative space solutions, enable more accurate weather forecasts, drive insightful observations of our planet, deliver actionable data and intelligence, and ensure those who defend our freedom go forward bravely and return home safely. ## Forward-Looking Statements

This release contains "forward-looking" statements concerning future events and financial performance. Words such as "expects," "anticipates," "estimates," "believes," "targets," "likely," "positions" and similar expressions typically identify forward-looking statements, which are generally any statements other than statements of historical fact. Such statements are based on current expectations or views of the future and are subject to risks and uncertainties, which could cause actual results or events to differ materially from those expressed or implied. You should therefore not place undue reliance upon any forward-looking statements and any such statements should be read in conjunction with, and, qualified in their entirety by, the cautionary statements referenced below. The company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Key factors, risks and uncertainties that could cause actual outcomes and results to be different are summarized in filings with the Securities and Exchange Commission, including Exhibit 99 in our Form 10-K, which are available on our website and at www.sec.gov. Additional factors that might affect: a) our packaging segments include product capacity, supply, and demand constraints and fluctuations, including due to virus and disease outbreaks and responses thereto; availability/cost of raw materials and logistics; competitive packaging, pricing and substitution; changes in climate and weather; footprint adjustments and other manufacturing changes, including the startup of new facilities and lines; failure to achieve synergies, productivity improvements or cost reductions; mandatory

deposit or other restrictive packaging laws; customer and supplier consolidation; power and supply chain interruptions,; potential delays and tariffs related to the U.K's departure from the EU; changes in major customer or supplier contracts or a loss of a major customer or supplier; political instability and sanctions; currency controls; changes in foreign exchange or tax rates; and tariffs, trade actions, or other governmental actions, including business restrictions and shelter-in-place orders in any country or jurisdiction affecting goods produced by us or in our supply chain, including imported raw materials, such as those related to COVID-19 and those pursuant to Section 232 of the U.S. Trade Expansion Act of 1962 or Section 301 of Trade Act of 1974; b) our aerospace segment include funding, authorization, availability and returns of government and commercial contracts; and delays, extensions and technical uncertainties affecting segment contracts; c) the company as a whole include those listed plus: the extent to which sustainability-related opportunities arise and can be capitalized upon; changes in senior management, succession, and the ability to attract and retain skilled labor; regulatory action or issues including tax, environmental, health and workplace safety, including U.S. FDA and other actions or public concerns affecting products filled in our containers, or chemicals or substances used in raw materials or in the manufacturing process; technological developments and innovations; the ability to manage cyber threats and the success of information technology initiatives; litigation; strikes; disease; pandemic; labor cost changes; rates of return on assets of the company's defined benefit retirement plans; pension changes; uncertainties surrounding geopolitical events and governmental policies both in the U.S. and in other countries, including policies, orders and actions related to COVID-19, the U.S. government elections, stimulus package(s), budget, sequestration and debt limit; reduced cash flow; interest rates affecting our debt; and successful or unsuccessful joint ventures, acquisitions and divestitures, and their effects on our operating results and business generally.
