Ball Aerospace Wins MASINT Delivery Order Contract

PRNewswire-FirstCall DAYTON. Ohio

The U.S. Air Force has awarded Ball Aerospace & Technologies a \$1.45M delivery order contract for the Measurement and Signature Intelligence (MASINT) Distributed Exploitation Element (MDEE) Squadron Stand Up. Ball Aerospace, and its teammate Raytheon Company, will coordinate with the National Air and Space Intelligence Center (NASIC) and the Ohio Air National Guard to stand up the MDEE to provide timely, integrated analysis of MASINT and Advanced Geospatial Intelligence (AGI) data for Air Force Distributed Common Ground System users.

Ball Aerospace has provided support in exploitation of MASINT and AGI data for NASIC, located at Wright-Patterson Air Force Base, Ohio, for 23 years. Ball's expertise is in developing algorithms and software tools used to process and analyze data from a number of MASINT and GEOINT sensors, including overhead non-imaging infrared, thermal infrared, spectral, radar and radiofrequency sensors. The NASIC intelligence products that result from Ball's capabilities in MASINT and GEOINT directly support on-going military operations, national decision makers and other members of the intelligence community.

Ball Aerospace & Technologies Corp. supports critical missions of important national agencies such as the Department of Defense, NASA, NOAA and other U.S. government and commercial entities. The company develops and manufactures spacecraft, advanced instruments and sensors, components, data exploitation systems and RF solutions for strategic, tactical and scientific applications. Over the past 50 years, Ball Aerospace has been responsible for numerous technological and scientific 'firsts' and acts as a technology innovator for the aerospace market.

Ball Corporation is a supplier of high-quality metal and plastic packaging products for beverage, food and household customers, and of aerospace and other technologies and services, primarily for the U.S. government. Ball Corporation and its subsidiaries employ more than 15,500 people worldwide and reported 2006 sales of \$6.6 billion.

Forward-Looking Statements

This release contains "forward-looking" statements concerning future events and financial performance. Words such as "expects," "anticipates," "estimates" and similar expressions are intended to identify forward-looking statements. Such statements are subject to risks and uncertainties which could cause actual results to differ materially from those expressed or implied. The company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Key risks and uncertainties are summarized in filings with the Securities and Exchange Commission, including Exhibit 99.2 in our Form 10-K, which are available at our Web site and at http://www.sec.gov/. Factors that might affect our packaging segments include fluctuation in consumer and customer demand and preferences: availability and cost of raw materials, including recent significant increases in resin, steel, aluminum and energy costs, and the ability to pass such increases on to customers; competitive packaging availability, pricing and substitution; changes in climate and weather; crop yields; industry productive capacity and competitive activity; failure to achieve anticipated productivity improvements or production cost reductions, including those associated with our beverage can end project; the German mandatory deposit or other restrictive packaging laws; changes in major customer or supplier contracts or loss of a major customer or supplier; and changes in foreign exchange rates, tax rates and activities of foreign subsidiaries. Factors that might affect our aerospace segment include: funding, authorization, availability and returns of government and commercial contracts; and delays, extensions and technical uncertainties affecting segment contracts. Factors that might affect the company as a whole include those listed plus; accounting changes; successful or unsuccessful acquisitions, joint ventures or divestitures; integration of recently acquired businesses; regulatory action or laws including tax, environmental and workplace safety; governmental investigations; technological developments and innovations; goodwill impairment; antitrust, patent and other litigation: strikes: labor cost changes; rates of return projected and earned on assets of the company's defined benefit retirement plans; pension changes; reduced cash flow; interest rates affecting our debt; and changes to unaudited results due to statutory audits or other effects.
